Dear Messrs. Day and Nord:

## FINAL 1100-EM-1 REMEDIAL INVESTIGATION PHASE 2 SUPPLEMENTAL WORK PLAN

The subject document is enclosed. Copies were provided to Mr. Dave Einan on April 30, 1991. The document has been revised to the "current status of the Project", i.e., (1) it incorporates comments from the Environmental Protection Agency (EPA) and the Washington State Department of Ecology (Ecology) as dispositioned and documented in the U. S. Department of Energy's (DOE) response provided at the December 19, 1990, 1100-EM-1 Unit Managers' Meeting; (2) it updates the appropriate December responses to incorporate agreements reached among the three parties at the February 13, 1991, meeting (these agreements are documented in the February 28, 1991, letter to Mr. Paul Day from Mr. Steve Wisness); and (3) it incorporates a number of other changes which have been discussed at subsequent Unit Managers' Meetings.

As a reminder, Section 9.0 of the Hanford Federal Facility Agreement and Consent Order, First Amendment, August 1990, states that EPA, as lead regulatory agency, will have 30 days to determine if the document "is complete". If EPA does not respond and has not notified DOE-RL of the need for an extension by close of business on May 31, 1991, the document will become final.

If you have any questions, please call Mr. Bob Stewart at (509) 376-6192.

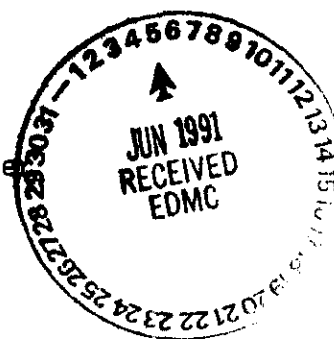

Sincerely,

*Steve H. Wisness*  
Steven H. Wisness  
Hanford Project Manager
